

Where do I find my CBS code?

Open your eKey app, click on My Keyboxes, select the Keybox, click on the arrow within the Program Keybox menu, then scroll down for the seven-digit CBS code.

Will I need to provide the CBS code to REALTOR® Members too?

No, this is for affiliate members only.

Note: There are times that a Seller will request their agent to activate the CBS code for REALTOR® showing.

But I didn't turn the CBS code on, is it still required?

Yes, the feature that requires the CBS code is within the Affiliate key (see below)

When I open the Program Keybox menu, I see a circle that says require CBS code and it's not selected. So, this means that the affiliate can access the lockbox without calling me for a CBS code?

No. You will still need to provide the CBS code to the affiliate. Again, the feature that requires the CBS code is within the Affiliate key service.
